

Dating Nails & Discs

- i Aluminum or Bronze**
- i Year* can be stamped on head** *Or up to four characters of your choice
- i Durable and effective**

Our aluminum dating nails are 1-1/2 inches in length, while our bronze nails measure 3 inches. Both have a 1/4 inch shank. Shanks are barbed for maximum holding power.

Custom identification and dating discs are readily available. These rugged discs (.0625" aluminum) measure 1 inch in diameter, with either a 9/32 or 1/8 inch center hole.

Up to twenty-two (22), 1/8" characters (including spaces and punctuation) can be wrapped comfortably about the circumference of the disc for easy identification after installation.

1-1/2 inch Date Nail
1 inch Date Disc with 9/32 inch Diameter Hole
