

# Galvanized Steel Nails

**i** *Manufactured especially for Premax characters & tags*

**i** *Round heads enhance product appearance*

**i** *Durable and effective*

Both have notched shanks to prevent backout. Their round heads enhance the appearance of our products.

The GN-3D is an economical, hot dipped galvanized nail with a flat head.

Premax markers and tags are manufactured of outdoor durable aluminum. If properly attached, they will outlast the pole. We carry two nails manufactured especially for attaching our characters and tags. These two nails—the BGN-15 and the BGN-13—are made of steel and are bright galvanized with zinc chromate. They will not bend, rust, or lose their heads over the course of decades.

1-1/2 inch Bright Galvanized Nail

1-1/2 inch Galvanized Flat Head Nail

Length	Recommended Use	Item	Qty	Qty/Lb.
1 inch	1, 2, & 3 inch pole markers/tags	BGN-15	bulk box,* 1-lb. box, 3-lb. box, 5-lb. box	840
1-1/2 inch	4 & 6 inch characters, 614 aerial markers	BGN-13	bulk box,* 1-lb. box, 3-lb. box, 5-lb. box	300
