

Dating Nails & Discs, Survey Discs

i Aluminum or Bronze

i Year* can be stamped on head *Or up to four characters of your choice

i Durable and effective

Our aluminum dating nails are 1-1/2 inches in length, while our bronze nails measure 3 inches. Both have a 1/4 inch shank. Shanks are barbed for maximum holding power.

Custom identification and dating discs are readily available. These rugged discs (.0625" aluminum) measure 1 inch in diameter, with either a 9/32 or 1/8 inch center hole.

Up to twenty-two (22), 1/8" characters (including spaces and punctuation) can be wrapped comfortably about the circumference of the disc for easy identification after installation.

1-1/2 inch Date Nail
1 inch Date Disc with 9/32 inch Diameter Hole

Survey Discs

Our custom survey discs, also known as survey washers, are customized with your company name, license number or other information and pair well with Premax date nails.

Custom identification discs are a perfect companion to dating nails.

Up to four characters can be stamped on nail head.
