

# EMBOSSED VS. STAMPED ALUMINUM CHARACTERS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

## EMBOSSED

Embossed tags look clean and sharp, each character having a uniform look. The nature of the embossed tag makes it easier for the viewer to read the characters from any angle while also increasing viewing distance.

465 GRIFFIN BLVD  
AMERY, WI 54001

## STAMPED

When aluminum is stamped, the characters are merely mashed or cut into the aluminum with a male die only. Stamped tags are somewhat harder to read and require the lineman to view the tag from a straight on angle for an accurate read of the marker.
