

CUSTOM SIGNS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Our custom signs are available in virtually any size, shape, color, or configuration. Made to withstand the elements with our standard or your custom design. At Premax we manufacture signs out of heavy gauge steel, aluminum or high density polyethylene. Any combination of colors, simple text, logos or other symbols presents no problem. Signs may be screen printed or embossed and painted with baked enamel. Overlaminates of clear polyester or Tedlar® are available to extend the life of printed signs. We can make signs directly from your electronic design files, or we can provide design help; the choice is yours.

*Custom shapes, sizes,
colors, text and images*

*Screen printing or
embossed and painted*
