

DELINEATORS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Premax delineators are manufactured from .025" aluminum. Their reflective coating comes from 3M's Scotchlite™ reflective vinyl sheeting. All delineators are 2" wide and can be attached with nails. Attach to pad mounted gear with Scotch VHB™ 4945 double-sided tape or construction adhesive.

Custom lengths and widths (up to 7") are available.

LENGTH	STYLE	ITEM	QTY
8,10, or 12 in.	Scotchlite™ vinyl sheeting, Yellow	DLY-	bulk.

HELP PREVENT ACCIDENTS

Reflective delineators help reduce accidents involving poles near roadways. Give motorists a chance to see and avoid field assets at night and during inclement weather

REDUCE LIABILITY

Install delineators and make a good faith effort to upgrade to a safer electric distribution system.

***Delineators can be made in other colors, lengths and widths.*
