

# EMBOSSSED ALUMINUM LETTERS & NUMBERS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

## ROMAN TYPEFACE

Natural hazards-ultraviolet radiation, temperature extremes, cresote leaching, and salt spray0don't affect Premax's rugged, mill finish, aluminum numbers & letters. Their embossed profile reflects light to provide easy reading from any angle. Durable Premax letters and numbers have proven themselves to be the industry's preferred marking system for over eighty years.

SIZE	CHARACTER/PLAQUE STYLE	ITEM	QTY

# CUSTOM POLE TAGS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Premax can readily manufacture a wide variety of tags displaying consecutive numbers, either alone or combined with company logos, initials or other relevant text. Nail holes can be customized for your particular application. First time orders may incur an additional (one time) charge, depending on die requirements.

Special orders? No problem! Premax would like to be your number one supplier for asset identification products. With over 80 years of experience we can call on a wide variety of metal forming and screenprinting capabilities to produce just the right marker for your particular application.

*Virtually any shape can be used.*

*Custom design capabilities at  
Premax provide countless  
special application solutions.*

*High quality embossing  
showcases your company identity.*

*Consecutive numbering provides  
an accurate economical solution  
to asset marking needs.*

# DATE NAILS & CUSTOM DISCS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Our aluminum dating nails are 1-½ inches in length, while our bronze nails measure 3 inches. Both have a ¼ inch shank. Shanks are barbed for maximum holding power.

Custom identification and dating discs are readily available. These rugged discs (.0625" aluminum) measure 1 inch in diameter, with either a 9/32 or 1/8 inch center hole. Up to twenty-two (22), 1/8" characters (including spaces and punctuation) can be wrapped comfortably about the circumference of the disc for easy identification after installation.

Our **custom survey discs** are customized with your company name, license number or other information to pair well with premax date nails.

NAIL SIZE	STYLE	ITEM	QTY

# NIGHTVIEW™ MARKERS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Premax Nightview™ Markers represent the best in pressure sensitive reflective labels. Made from 3M Scotchlite™ sheetings and 3M inks and toners, these markers are the most durable reflective vinyl markers made in the world today.

Nightview™ markers measure 2-7/8" x 1-3/4" with 2-1/2" tall characters in Helvetica typeface. The markers are back slit to allow for easy application. Nightview™ markers are packaged with 25 of the same character in a zip-lock bag, resealable for maximum shelf life of unused product. Binder sheets of pressure sensitive markers peel away from the liner card and pick up dirt, creating waste.

CHARACTER SIZE	REFLECTIVE GRADE	TAG SIZE	ITEM	QTY
2-1/2 inch	Engineering	2-7/8" x 1-3/4"	NV25YBE-*	25/bag
7/8 inch	Engineering	1" x 1"	NV78YBE-*	25/bag

# BRIGHT DELUXE LETTERS & NUMBERS

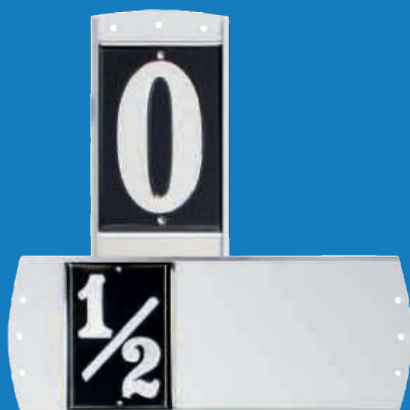

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Premax's Bright Deluxe letters and numbers are available in polished aluminum with black enamel background. This finish is produced with premium quality baked enamel (45% solids), using a proprietary formula containing state-of-the-art UV inhibitors.

The BDX is a bevel-edged plaque (0.016" aluminum) with 2-½" tall characters de-bossed into a 3-¼" x 2-¼" rectangle. Each figure has two .10" mounting holes, top and bottom. Mounting frames for grouped characters are available in sizes holding 2 to 8 characters, in either horizontal or vertical orientation. Frames are made of .020" aluminum with mounting holes at each end.

SIZE	CHARACTER/PLAQUE STYLE	ITEM	QTY
2-1/2' figure/ 3-1/4" bkgrnd	Number, Letter, Dash, 1/2, & Polished Aluminum on Black	BDX-*	100/box

*Premium Quality baked on enamel background contains UV inhibitors.*

*Center holes allow BDX markers to be attached with or without holders.*

*Solid aluminum holders, precisely made, allow for easy assembly.*

# GALVANIZED STEEL NAILS

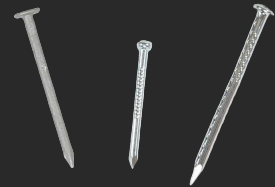

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Premax markers and tags are manufactured of outdoor durable aluminum. If properly attached, they will outlast the pole. We carry two nails manufactured especially for attaching our characters and tags. These two nails—the BGN-15 and the BGN-13—are made of steel and are bright galvanized with zinc chromate. They will not bend, rust, or lose their heads over the course of decades.

Both have notched shanks to prevent backout. Their round heads enhance the appearance of our products.

The GN-3D is an economical, hot dipped galvanized nail with a flat head.

LENGTH	RECOMMENDED USE	ITEM	QTY	QTY/LB.

# AERIAL MARKERS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

Aerial markers are crucial elements in the cost control of line maintenance. Missing, faded, or damaged markers result in considerable down-time for field repair personnel. Premax produces transmission line markers that are large, rugged, and identifiable from a considerable distance. You can number a tower once and rest assured you won't have to number it again.

Our markers are easily attached to lattice towers & concrete or steel pylons via available racks, banding & other mounting fixtures. Consult factory for specific application.
