

KNOCK-OUT GAS VALVE TAGS

PREMIUM QUALITY | MAXIMUM DURABILITY | FAST SHIPPING

In gas utility operations, accurate valve identification directly supports crew safety and system reliability. Premax Gas Valve Tags are designed to provide durable, high-visibility marking for valves and related infrastructure in demanding outdoor environments.

Our knock-out design allows for flexible numbering configurations while maintaining structural integrity and long-term legibility. Built from durable aluminum and manufactured with precision, these tags help utilities maintain organized, dependable asset identification programs.
